

BOLD, UNIQUE FEATURES

VISTIQ is a distinctive and innovative luxury 3-row all-electric SUV that delivers stylish functionality and technology to enhance the luxury experience you've been waiting for.

PANORAMIC SUNROOF

Welcome natural light and provide expansive views from every seat with the panoramic dual-pane sunroof with third-row fixed glass, including sunshades.

AMBIENT LIGHTING

The VISTIQ interior comes to life with 126-color Tri-Zone Ambient Lighting, which allows the perfect mood to be set with accents across footwells, interior doors, along the sunroof and more.

NIGHT VISION

Available Night Vision* helps you see beyond your headlamps and alerts you to detected pedestrians or large animals directly ahead.

HEAD-UP DISPLAY

Available augmented reality Head-Up Display* projects real-time color graphics displaying speed, navigation, phone and music information directly in your line of sight for easy reference.

* Only on Premium Luxury and Platinum trims

DIMENSIONS

The curb weight is **2899 kg**.

Tires:	Tires, 285/45R22 all-season, self-sealing

SUPER CRUISE – REDUCED FEATURE SCOPE FOR EUROPE

US			Europe			
	Available on all roads			Available on all roads		Super Cruise is functional only on mapped roads. See EU mapped roads here
	Hands-free			Hands-free		Super Cruise allows the driver to take hands off the steering wheel
	Driver facing camera and attention system			Driver facing camera and attention system		Cameras ensure the driver keeps eyes on the road, otherwise Super Cruise gets disabled
	Lane change on demand			Lane change on demand hands-off		When driver engages the blinker, the vehicle will look for the first safe opportunity to change lane
	Automatic lane change			Automatic lane change ¹		The vehicle will automatically overtake slower cars, when conditions allow
	Route following			Route following ²		The vehicle will change lanes as needed to follow a route set in the navigation system
	Trailer towing			Trailer towing		Super Cruise can be used also when trailer towing

¹R171 would allow ALC, but requires for the system to bring the car to emergency or slower lane in case of unresponsive driver, which is something Super Cruise currently can't do

²Route following would require ALC to function
